## PROFILE

Full-Stack Web Developer (MERN) with strong skills in MongoDB, Express.js, React, Next.js, and Node.js. Skilled at building user-friendly web applications and collaborating effectively to turn ideas into functional projects. Eager to gain real-world experience through an internship.

## EXPERIENCE

**Neximprove**

Frontend Developer Intern | *6* Months *(*Completed*)*

- Engineered modular UI components using Next.js, TypeScript, and Tailwind CSS, improving client-side page load times and frontend scalability.
- Certificate: View Certificate

Full Stack Developer Intern | *2* Months – Present

- Architecting end-to-end full-stack web solutions, implementing RESTful APIs with Node.js/Express, and optimizing database queries in MongoDB and SQL for enhanced performance.

## SKILLS

**Technical:** HTML, CSS, JavaScript, React.js, Redux, TypeScript, Node.js, Express.js, MongoDB, SQL, Tailwind CSS, Azure SQL, Next.js
**Tools & Experience:** Excel, Google Sheets, Google Docs, Canva, VS Code, Postman, jira, trello ,
**Certification:** Git & GitHub (Coursera): link
**Prompt Engineering** : link

## EDUCATION

**Bachelor of Computer Application** | Eternal University, Baru Sahib | July 2024 – Present
**Bachelor of Art (English Honours)** | Medininagar, Jharkhand | July 2020 – December 2024

## PROJECTS

**Neighbourhood Helper** | Website
**Technologies***: React.js,* Redux, JavaScript, Node.js, Express.js, MongoDB, Socket.io, REST APIs, JWT, Tailwind CSS
Engineered a full-stack real-time platform facilitating community service exchange using React.js, Redux, Node.js, Express, and MongoDB. Integrated WebSocket connections via Socket.io for dynamic updates on request lifecycle events. Implemented secure user authentication utilizing JWTs, data encryption, and robust error-handling middleware.

ZaikaHub | React • React Router • REST API • Netlify Built a responsive recipe discovery web app with dynamic client-side routing and asynchronous REST API data retrieval.
